

In order for you to download the file from the BLU FTP server, please follow the steps below:

1. Download and install "FileZilla" using this link: <https://filezilla-project.org/download.php>
2. Once you have downloaded and installed "FileZilla", login with the following credentials (case-sensitive).

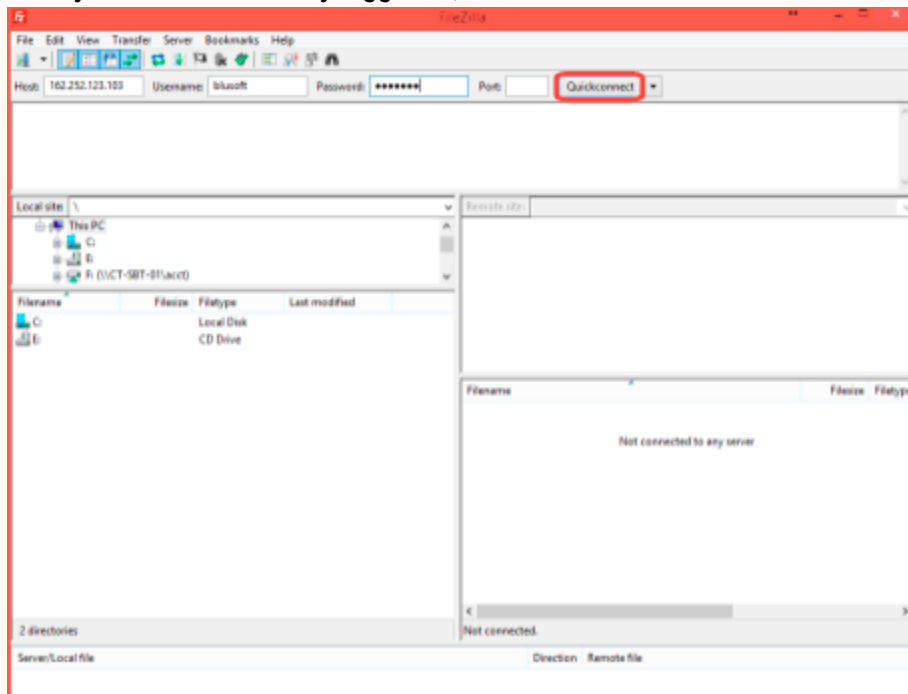

SW – Finaluser

- Host: 162.252.123.103
- Username: End_User
- Password: aplic2014
- Port: 21

Kernel Source Codes

- Host: 162.252.123.103
- External Host: ftp-01.bluproducts.com
- Username: Kernel_End_User
- Password: kernelSource2017@\$
- Port: 9990

3. Once you have successfully logged in, select "**Quick Connect.**"

4. On the right side of the window, navigate to the folder named "**SW - finaluser.**"
5. Under "**SW – Finaluser**" you will find the folder for your device, and you may drag this folder to your desktop or wherever you wish to download the folder on your device.
