In order for you to download files from the BLU FTP server, please follow the steps below.

1. Download and install *"FileZilla"* using this link: https://filezilla-project.org/download.php
2. Once *"FileZilla"* is downloaded and installed, login using the following credentials (case-sensitive).

   ### *SW-Finaluser*
   - <u>Host:</u> 162.252.123.103
   - <u>Username</u>: End_User
   - <u>Password</u>: aplic2014
   - <u>Port</u>: 21

   ### *Kernel Source Codes*
   - <u>Host:</u> 162.252.123.103
   - <u>Username</u>: Kernel_End_User
   - <u>Password</u>: kernelSource2014
   - <u>Port</u>: 21

3. Once you have successfully logged in please select *"Quick Connect"*.

4. On the right side of the window, please navigate to the folder named *"SW – finaluser"*.
5. Inside *SW – finaluser* you will find the folder for your device and you may drag this folder to your desktop or wherever you wish to download the folder for your device.
